

## The Power of Place: A Walk Through Time October 17 - October 18

Join Green Schools National Network and 2017 Best of Green Schools award recipient Prairie Crossing Charter School for a two-day exploration of the Power of Place: A Walk Through Time.

This site seminar will provide an opportunity for teachers and school leaders to see place-based, project-based, and problem-based learning in action. Prairie Crossing Charter School, a K-8 school just north of Chicago, was founded in 1999, with an environmental and sustainability lens to match the surrounding conservation neighborhood. Teaching and learning at Prairie Crossing are not restricted to the four walls of a classroom or pages in a book. Instead, teaching and learning are informed by the history of the school and grounds and how best to empower students to become Natural Leaders through place-, project-, and problem-based learning while preparing them for high school and beyond.

### Registration

Catalyst Network Members: Two free slots with Catalyst Code/\$100 for each additional slot

GSNN Members: \$200

Non-Members: \$250

Register early! The seminar is limited to 30 participants.
